

Food Allergen Disclaimer

Boise State Dining Services prepares foods in commercial kitchens where cross-contact with food allergens is possible. We take precaution to check ingredient information and strive to prevent cross contamination of ingredients.

While we make every effort to identify nutrition data and allergen information, there is a possibility that food manufacturers change their product formulation without notice. Accordingly, actual ingredients and nutritional content may vary and we cannot guarantee that any food item will be completely free of food allergens.

Boise State Dining Services will not assume any liability for adverse reactions to foods consumed or items one may come in contact with, while eating at any University establishment.

It is the responsibility of the customer with food allergies or other specified nutritional concerns to make the final judgment on whether to eat the foods selected. If you have questions about a particular item, please consult with the dining manager on duty.
